

Turning Clock Display Off

1. Push the picture/sound quality button, and then push the **TV設定** (TV Settings) control assist button.

2. Push the **次ページ** control assist button.

3. Push the **時計** (Clock) control assist button.

Each time this is pushed, the clock display will switch on/off.

Advice:

- The clock display can only be turned off when in TV or video image mode.
- The clock time is set by GPS satellite signals automatically, so modification is unnecessary.
