

WATCHING A VIDEO

A portable video device can be connected to the separately sold TV tuner using a connector cable.

Contact Mitsubishi for details.

Turning the Power On

1. Push the TV button to display the TV reception screen.

2. Push the **次ページ** control assist button, and then push VTR.

Advice:

Push the TV control assist button to switch to the TV screen from the video screen.

Advice:

If a video is not connected, the VTR control assist button will not be displayed.
